---

### *MP3 What is it and how does it benefit me?*

MP3 is a designation for a particular type of recorded audio file.

The benefit of working with MP3 files of the sessions is that they are compressed 90% smaller while offering the same voice audio quality. This means that we can put all 11 sessions in MP3 on 1 CD.

The only problem with MP3 files is that they need to be played on an MP3 audio player. Most standard CD players (including those in cars) do not have the capability to play MP3 files.

The good news is that almost any computer today has the ability to play MP3 files. If you get the MP3 set CD, all you would have to do is put it in your computer and when the CD opens and you can see the files, just double click a file and your computer MP3 player will play the session.

If you have an iPod or other brand of MP3 player you can load the files into it and listen as you please.

The Complete Conference in MP3 format is \$49.00 - almost half the cost of the CDs.

### *Healing Touch Professional Association Discount*

We are offering a 20% discount on complete sets of Conference CDS to members of HTPA! The cost of the complete set is \$88.00 with the 20% discount of \$17.60 brings the cost down to \$70.40! And for the MP3 complete set the 20% discount will be \$9.80 which brings the cost down to \$39.20!

There is no HTPA discount when ordering single CD sessions.
