Level 3 Class

# The Art of Being a Healer

It is the spirit of healing and love which surely permeated this class, a very sacred and personal experience for me. Level 3 really feels like a “higher level”. Thank you so much. Thank God for your commitment to teaching others about healing (and really) unconditional love.”

– Student, Perrysburg, OH

Level 3 teaches the “art” of being a healer. It’s one thing to know how to paint and quite another to be a painter. Level 3 will transform your practice from one of techniques to a canvas of healing energy that will heighten the color palette of your energetic senses, expand your experience of life around you and create a deepened sense of sacred space and well-being for those who reach out to you for Healing Touch work.

This class focuses on your development as a healer through self-care and pre-session practices. Utilizing these concepts you will also be introduced to several new techniques that will continue to expand your understanding of the human energy field and how it manifests in the physical, emotional, mental and spiritual bodies.

## Who can take a Level 3 class?

Level 3 is for students who desire more in-depth skills in Healing Touch and have successfully completed Level 1 and Level 2. This course includes: development of Higher Sense Perception (HSP), advanced sequencing of healing techniques, working with guidance, self-healing and self-development. **16-18 CE contact hours are offered with this class.**

Learning to use the Hara Alignment and chelation takes the healing process to a whole new level, as it teaches the healer to work with a much higher vibration of energy. This level of energy vibration is so much more effective for clearing congestion, that the healing treatment works more quickly and effectively. The healer will become more sensitive to the nuances of the energy field as they learn this high level work.”

- Anne Day, Level 3 Instructor

## What will I learn?

- Share your experiences using Healing Touch Level 1 and 2 techniques.
- Learn advanced development of the healer practices and how using them will positively affect your life and practice.
- Experience healing from three perspectives: practitioner, client, and observer/coach. (This exercise is designed to help ground you in all the experiences you and your clients may have in a Healing Touch session.)

- You will be introduced to new energetic points within the physical body where the haric body, core star, tan tien, soul seat and point of individuation are located in the body, and why this is important to you as a healer.
- Demonstrate a full healing sequence using new techniques, including: Chelation, Spinal Cleansing and working at the 5th, 6th, and 7th levels of the subtle body.
- Discuss and practice connecting with universal energy and working with guidance
- Practice intuitive skills using Etheric Template Clearing
- Learn the Lymphatic Drain, a technique critical in energetically assisting the lymph system in relieving congestion and generalized soreness and achiness. This technique is recommended for certain immune system disorders and with cancer patients.
